

## GEORGE MITCHELL SHOT BY SISTER IN SEATTLE

### Murderess Admits She and Widow of "Holy Roller" Planned to Kill Youth Who Slew Creffield.

(Associated Press.)  
Seattle, Wn., July 13.—Esther Mitchell, who shot and killed her brother, George Mitchell in the Union station yesterday, made a statement last night in which she describes the murder as deliberately planned.  
George Mitchell had recently been acquitted of the murder of Franz Edmund Creffield, a "Holy Roller" prophet, on the plea of insanity. He claimed that Creffield had wronged his sister, Esther, who was a "Holy Roller." Esther planned her brother's death.  
In her statement she said:  
"Mrs. Creffield and I talked over the matter of killing George. The one that had the best chance was to do it. Mrs. Creffield bought the gun. This afternoon I thought I would have a better chance to do it and Mrs. Creffield gave me the gun. We agreed that it must be done as soon as possible.  
"My brother Fred was up to my room to-day and said that Perry and George were going to Portland this evening. I went to the depot and saw Perry get his ticket. At last I saw George and I shook hands with him. He and Perry were walking in front and Fred and I were walking behind. I was walking to the door and George was in front of me. This was the chance I wanted and I shot him.  
"My brother Fred grabbed me and I sat down on his lap and put my arms about his neck.  
"I sat there and the officer came. I intended to follow him to Portland if I did not get a chance at him here.  
"I am not sorry I did the shooting. I am glad of it."  
Mrs. Creffield, the widow of the dead prophet, was arrested last night and admitted having entered into a com-

Committee Appointed, to Vote Proxies For the "Administration Ticket."

(Associated Press.)  
New York, July 13.—The board of trustees of the New York Life Insurance Company yesterday announced the appointment of the following committee to receive and vote proxies for the "administration ticket" on December 18th next: Albert R. Johnson, of Philadelphia, associated with the Baltimore, Md., office; Rowland G. Hazard, of Peaslee, R. I.; Judge Horace H. Lorton, of the United States Circuit court, Nashville, Tenn.

THE RECENT EARTHQUAKE.

Dr. Stuart Jordan Says Disturbance Originated in Behring Sea.

(Associated Press.)  
San Jose, Cal., July 13.—Dr. David Stuart Jordan, in a lecture delivered last night, located the origin of the recent seismic disturbance in the Behring Sea, and prophesied that in the event of trouble would be in the vicinity of San Leandro and Hayward, California.

## WANTS SOME OF VICTORIA'S SWANS

### TO AUGMENT BEAUTY OF WOODLAND PARK

Chairman Shrewsbury, of Seattle Commission, Visits City—Admires Beacon Hill.

Chairman Shrewsbury, of the Seattle park commission, is in the city for the purpose of interviewing His Worship Mayor Morley in regard to the possibility of effecting an exchange of some of the many different varieties included in the wild stock of Woodland park for a number of the swans which form one of the features of the Beacon Hill recreation grounds. While the former boasts of a splendid menagerie, one of the best on the Pacific coast, it has no swans. Those birds are seen about in stately fashion, their long white necks stretched forward eagerly to obtain some of the dainties offered by picnickers, can easily understand why the representative of Seattle's principal park should wish to secure some of these to add to the attractions of the place. Mr. Shrewsbury expressed himself in strong terms this morning as to the beauty of the swan. He said he had seen no grander sight than that presented by the birds which grace the lakes at Beacon Hill park.

The Woodland recreation grounds, which are managed by a commission over which Mr. Shrewsbury presides, covers over a hundred acres in the vicinity of Seattle. Its attractions are being augmented constantly, some \$100,000 being granted annually for its maintenance. Very few specimens of wild stock peculiar to the northwest can be found there, and if anything has been omitted it is safe to say it will be found and placed on exhibition in the course of time. But, despite the fact that the resources of the commission are so much more extensive than those of the local park committee, Mr. Shrewsbury, not only admires the park of the capital of British Columbia, but looks upon some of the curiosities contained within its boundaries with covetousness. He states that the area of the Woodland grounds is no more than that of those of Beacon Hill, while the local site, he acknowledged, was incomparably beautiful from a scenic and, in fact, every other standpoint. That of Seattle, he pointed out, is the size of its manager. The local park, he thought, excelled in point of the interest of its contents to spectators.

During Mr. Shrewsbury's connection with the management of the Woodland park he has had many novel experiences. The government recently presented Seattle with four genuine Buffalo, and some trouble was met in placing them within the enclosure prepared for their reception. Two or three-inch boards were ineffective guards, the animals breaking through with surprising ease and occasioning all kinds of difficulty in restraining them in their desire for liberty. No peace was obtained until they were let loose in a two or three-acre field. The elk also became unruly at times, jumping over fences ten or twelve feet high and giving their keepers a merry chase. And so the commissioners were kept busy with escapes and deaths through fights between different belligerent members of their large family of representatives of the lower kingdom.

To cap the climax, however, Mr. Shrewsbury, ordered a few guinea pigs, which he had had many a month ago, to be increased, a month and another addition was necessary, and now an acre of swan swamp is covered with these small and very multiplying animals. Their breeding capacity, Mr. Shrewsbury affirms, is in no way exaggerated in that exceedingly humorous and widely read story entitled "Pigs in Pigs," published in a standard current magazine.

Shrewsbury intends looking into the method of park management here thoroughly in order that any valuable hints may be utilized in the further improvement of Woodland. He hopes also to take back with him one or two swans from Beacon Hill.

## ORANGEMEN MEET AT BEACON HILL

### THEY ARE ADVISED TO STUDY THE BIBLE

### Addresses Delivered by Officials of Order—Visitors Entertained at Gorge Park Last Night.

The celebration of the "Glorious Twelfth" is over for another year, and nearly all the visiting brethren of the Orange order have left the city again. In every way the short visit of the members to Victoria was acknowledged to have been an enjoyable one. Early in the evening the greater part of those attending returned to the city in order to take the special train for Nanaimo, and the steamer Charmer for the Mainland.  
The procession to Beacon Hill yesterday afternoon in the blazing sun was a trying one, but the members of the order bore up well and showed little signs of fatigue.  
At the Hill, on arrival at Beacon Hill park the members of the order in the parade formed a large circle with the Grand Lodge officers in the centre. Before dismissing the parade the usual cheers were given by which were honored the memory of King William, the King and Queen, the Orange order, the Grand Lodge and its officers and the subordinate lodges and members.  
After singing "God Save the King" the members dispersed, but a few minutes later about the platform erected amidst the shade of the trees.  
The platform was gaily decorated with bunting, and on it were seated the Grand Lodge officers, past masters and others. The remainder of the Orange brethren and visitors made themselves as comfortable as possible on the grass.  
The gathering was presided over by the R. W. G. M. John Wallace, of William's Head. With him on the platform were His Worship the Mayor, the honorary grand chaplain, Dr. Reid, of the Victoria; W. G. chaplain, Rev. Merton Smith, of Vancouver; Past Grand Master H. J. of Ontario, East; P. G. Masters Thos. Duke, Donaldson, Rev. A. E. Roberts, McDonald and Clarke; Vice Grand Master Thos. Cunningham, Past County Master J. McSpadden, County Master Hunt, Dr. Potts, Rev. T. W. Gladstone and Rev. S. J. Thompson.  
The fifth Regiment band stationed near by rendered musical selections during the afternoon.  
In opening the meeting R. W. G. M. Wallace extended a hearty welcome to all. He was sorry that New Westminster Orangemen had not been able to come to this gathering on account of transportation facilities not being available. He had received a message from Abbotsford, saying that 1,000 Orangemen were in attendance. At Cranbrook a message informed him a similar demonstration was in progress. He expected later in the day to hear from Salmon Arm, where many lodges were celebrating the day.  
His Worship Mayor Morley read an address of welcome to the order. This appeared in yesterday's paper.  
Rev. Dr. Reid, the honorary grand chaplain, was called upon to address the audience, but confined himself to a very short speech. In closing he complimented Mayor Morley on what he was doing in the city. He hoped he would continue his good works "giving the city better water" (laughter) and "better everything else."  
Rev. S. J. Thompson referred to the attendance as the largest Orange gathering he had ever seen during eighteen years in British Columbia. He was glad to be present to help to celebrate the victory of King William 216 years ago. He said that the speaker wondered whether the heirs of the privileges won for them at the battle of the Boyne appreciated these as they should.  
On the day of Boyne there was represented Roman Catholicism in King James and Protestantism in King William. Two forces might be said to have met on that day: light and darkness. The Orangemen claimed the right to an open bible. British subjects had a right to worship God according to their consciences. There might sometimes be exceptions to this. He instanced the case of the trouble at Malta. John McNeill with the permission of the Governor of Malta was conducting services there. The Roman Catholic archbishop of the island called upon the governor to stop these services. The governor declined to interfere at first, but afterwards after threatened disturbance the governor pulled down his flag and stopped the services. In view of this it was due to ask that in every part of the British dominion there should be freedom to worship God or "we will know the reason why." Referring to the question of separate schools in the Northwest, he claimed for his children the right to have them educated without sectarian influence. He believed this was a general opinion and any party which violated that would have to answer for it. He was going to speak out his mind.  
Past Grand Master Hull said that he had the duty put upon him to congratulate the British Columbia Orangemen

from the Ontario East Grand Lodge. It was his first time in the province, and he had been an educational one. He had learned as never before of the grand heritage which was Canada's. He realized the great responsibility which attached to Canadians in developing this territory. All had their share in this—by living consistent lives in conformity to the constitution of the Orange order. If they were true to the order they would have a great influence. Orangemen stood for freedom of worship to all. The greatest danger in Canada to-day was the attempts of the Roman Catholic church to get control of the schools of the Dominion. That battle must be fought out without intolerance. The fight was against the church of Rome, the most perfectly organized of institutions. In the Orange order was found the only organized force of the Protestant church. It was hoped that the time was near at hand when the victory would be gained. The time he hoped was near at hand when the politicians—"for we have no statesmen now, unfortunately they died with old Sir John A."—would be forced to comply with the wishes expressed.  
On Bro. Hull resuming his seat the band struck up "For He's a Jolly Good Fellow."  
(Continued on page 4)

## ICELANDERS FOR MOUTH OF SKEENA

### LARGE COLONY WILL BE LOCATED SHORTLY

### Immigrants From Northern Island to Farm and Fish in British Columbia.

A large Icelandic colony will shortly be located on one of the islands at the mouth of the Skeena river. The exact location has not yet been chosen and the name of the island is, by request, withheld for obvious reasons.  
Hans Hansen will leave for the North on August 1st with a party to investigate the district and decide upon a suitable site for the colony. It is hoped to be able to secure the land in adjacent sections, but if not, as many as possible will be located in one place. He estimates that the population of the colony will be about 250 when the first draft of settlers arrive, to be largely increased as soon as conditions warrant it.  
The intention is to divide the time between farming and fishing. Icelanders are adepts at both these industries and present one of the highest types of immigrants. In their island home they labor under natural conditions so harsh that the mild climate and rich lands of this coast come almost as a revelation. The location chosen is an ideal one. It is adjacent to enormous halibut and cod banks, equal to any part of the world, and is within easy distance of the many canneries that dot the Naas and Skeena. Security of constant labor has even now been felt in the district, and as the fishing industry increases the presence of the colony will be a great help to canners and other employers who will locate there. Wherever Icelanders have gone in Canada they have proved themselves industrious and reliable, and the new colony will be hailed with satisfaction by the people of Esquimaux and Port Simpson.

An application will, it is understood, be made to the provincial government for a temporary reserve of the lands picked out. This will enable necessary arrangements to be made for bringing out the new settlers. No effort will be made to land them in this province in a body. A dozen or so families will come at first to be followed by the others as soon as adequate preparations have been made for their reception.  
Mr. Hansen had great success in a similar project before. He carried out the same idea in the vicinity of Blaine, Wash., and his colonists are considered there a great acquisition to the population. Two or three members of the former party are associated with him in his present enterprise, and it is expected their knowledge of English manners and customs will prove invaluable to their newly arriving countrymen.

THE LATE J. A. MC CALL.

Former President of New York Life Left Estate Valued at Only \$40,535.

(Associated Press.)  
New York, July 13.—The Tribune says: "The net estate of John A. McCall, former president of the New York Life Insurance Company, who died on February 18th, amounts to only \$40,535 according to the appraisement filed in the surrogate's office yesterday. That his estate is so small is due to the fact that not long before his death he sold \$400,000 of his life insurance, that he took his cash surrender value, and sold his estate at Long Branch at a great sacrifice. This he did to fulfill his pledge to the trustees of the New York Life Insurance Company that he would personally make good any money of the company which he had paid to Andrew Hamilton, and which the latter was unable to account for. Following this promise he paid over to the company \$235,000. About \$60,000 of this represented the money received for his \$400,000 of insurance."  
McCall left no real estate. The entire personal property amounts to \$74,000, from which debts, administration expenses and other disbursements amounting to \$33,465 are deducted, leaving \$40,535."

## A BRIEF OUTLINE OF YEAR'S WORK

### DONE BY THE LOCAL TOURIST ASSOCIATION

### Statement of Expenses Incurred to Date—An Appeal For Financial Assistance.

The Victoria Development and Tourist Association is appealing to all classes of citizens for contributions and donations to defray the cost of the work to the end of the current season. In consequence of the large amount of labor necessary in connection with the amalgamation of the old association and the new 100,000 club, the very essential matter of raising revenue has been neglected, but now that the association has got down to regular work the requirement of funds becomes very necessary, and it is hoped that every citizen will contribute his quota.

In the first place, said Herbert Cuthbert in an interview to-day, it is as well to point out that the affairs of the association are managed by an executive, or board of management, composed of fifteen of our most progressive and successful business men, and that all expenditures are authorized by them as a whole. In fact no liability is incurred without the sanction of the full board. After a liability is incurred the account is brought before the finance committee and passed by them and further recommended to the executive for payment before the cheque is actually issued. Therefore the subscribers are assured that every care is taken that the money is devoted to the best interests of the city. The very complimentary references that have been made in the press of outside cities as to the vast amount of money expended in previous years, together with the known and tangible results that are apparent to our own citizens, testify to the fact that great care has been taken to make the money go as far as possible.

In speaking of the year's expenditure Mr. Cuthbert said that last year the association spent a little over \$9,000. When the estimates were made up at the beginning of the year the estimated expenditure was \$2,500, and this was before the amalgamation. So far, however, the executive has been very careful and the expenditure and all liabilities incurred to the end of the year, including about \$600 for alterations of premises—made necessary by adding the industrial department—and liabilities left over from last year, do not come up to the estimated expenditure prepared as mentioned above.

Briefly the expenditure and liabilities so far incurred are as follows:

Net balance of liabilities from last year	\$ 905.00
The printing of literature, including five thousand fine mailing cards, two thousand handsome illustrated posters in six colors, twenty thousand special circulars and one thousand poster cards distributed in every street left standing in San Francisco and in all the refuge camps; fifty thousand illustrated four-page folders, over thirty thousand of which have been distributed most of them from house to house in Seattle, Tacoma, Spokane and Portland; fifteen thousand illustrated envelopes; five hundred large street car signs in two colors; and fifty thousand twenty-four page illustrated booklets printed in two colors; the paper for this book alone weighing nearly four tons, and all sundry printing	2,400.00
The cuts and illustration for the same	325.00
Rent of office, bureau of information, telephone, lighting, etc., for year	710.00
Duty on literature distributed in United States, customs and express charges on literature, etc.	267.50
General advertising including two whole pages in the Manitoba Free Press now appearing, one page Pacific Monthly, etc.	232.00
Travelling expenses in visiting over 18 cities and resorts in California, Utah, Oregon and Washington, and in superintending the distribution of literature in these states and the cities thereof	335.40
Cost of alterations in bureau of information and in exhibition halls to fit them up for their present purposes, made necessary by the addition of the industrial department	825.00
Salary of secretary, lady attendant, office boy, which covers all costs of preparing literature of every nature, representative sent to outside cities, superintendence of distribution of literature, etc., for year	2,100.00
Office expenses, stationery and of sundries	100.00
Total	\$5,157.50

To meet the above liabilities and expenditure already incurred, there is the following available revenue:

Grant city council	\$4,000.00
Balance from last year and 1905	157.88
Proceeds from entertainments	123.00
Proceeds from advertisements	500.00
Subscriptions promised 1906	1,300.00
Total	\$5,980.88

There is therefore just over \$1,500 still to be contributed by the citizens to meet the present liabilities of the association. There is also a further

contemplated expenditure of about \$450 for the purpose of distributing the literature now on hand. The following prominent delegations who will visit the city this year, and in sending a representative through Manitoba and the Northwest to continue the work now being done there, and especially to represent Victoria at the Whinlup fair. This amount of \$2,100, that is still necessary, should easily be raised if the citizens will come up with their subscriptions as well as in past years. It is hoped, however, that in view of the enlarged scope of the association many of them will raise their contributions and many new subscribers will be enrolled. There is much good work that can be and which ought to be done if funds will permit.

It is only fair to say that the above summing does not give even a slight idea of the real work of the association. The distribution of the literature alone is a most remarkable feature of the internal office work. The Canadian Northwest might be taken as an example. In addition to the five full page advertisements that have been placed in the Manitoba Free Press and the handsome posters that have been sent into almost every nook and corner of this vast territory, nearly three thousand books have been sent by mail into as many representative homes, and every railway station and almost every hotel are supplied with packages of them, while the railway companies have had separate supplies sent to their advertising departments. Every city on the coast is spending large amounts in advertising, and therefore it is doubly necessary for this city to keep up the work. Citizens who mail their contributions will do much to encourage the association, and the collectors hope to call upon as many people as possible during the next few days.

## LARGE MILL FOR MORESBY ISLAND

### QUEEN CHARLOTTE GROUP TO HAVE BIG INDUSTRY

### Syndicate Will Shortly Erect Hundred Thousand Feet Mill at Cumsbqua Inlet.

The coming of the Grand Trunk Pacific railway is causing a large amount of activity in the North. Not only are numerous industries projected in its immediate vicinity, but places at some distance are rapidly assuming commercial importance.  
Cumsbqua Inlet, on the east coast of Moresby Island, one of the Queen Charlotte group, is the latest point at which it is announced a large industrial enterprise will be instituted. A syndicate, headed by John Moore, of Seattle, a veteran mill owner of the Sound, will erect a sawmill with a capacity of at least 100,000 feet per day. The point mentioned as soon as actual railway construction commences near this coast. This company has already secured ample timber limits. Forty square miles, or 25,600 acres, have been acquired from the provincial authorities, and the ample capital behind the men interested is a perfect assurance that the industry will be a large and permanent one.  
Timber on Queen Charlotte Islands reaches large dimensions, and Mr. Moore estimates the average production of the land leased by his syndicate will be 3,000 running feet to the acre. This will mean a total cut within sight of 300,000,000 feet, practically double the production of the whole province last year.

The Queen Charlotte group contains much valuable timber. Though, in places, not so thick as on Vancouver Island, it far surpasses the ordinary run of lumbering districts. Naden Island, so far as is known, boasts the biggest individual stick. It is growing near the lake of that name, and has attained a height of 200 feet. The diameter is over 4 feet, and an estimate by a competent cruiser places the production of this one tree when it is cut as 25,000 running feet of merchantable timber. A photograph of this giant of the forest seen this morning fully bears out the cruiser's description. The figure of a man standing by it appears a mere pigmy by comparison.

IN CRITICAL CONDITION.

### W. W. Sennell, Who Was Injured in Salisbury Disaster, is Slowly Sinking.

(Associated Press.)  
Salisbury, Eng., July 13.—The bulletin posted at the infirmary here this morning announced that Edward W. Sennell, of Brooklyn, N. Y., one of the passengers injured in the railway disaster of July 1st, was slowly sinking. Robert S. Critchell, of Chicago, another of the injured, is not so well as yesterday. His temperature rose during the night.

### Japanese Army Officers to Be Given Positions on Roads in States.

(Associated Press.)  
San Francisco, July 13.—Ten Japanese army officers are, it is said, to be given railroad positions on the Southern Pacific and allied roads. The object of sending these army officers to this country is to enable Japan, through their experience here, to improve her railroad service and operation, and also its railroad accounting methods.

A "dust tax" on motorists was advocated by Sir John Hibbert at a meeting of the Lancashire County council.

## PROMOTION FOR ALFRED DREYFUS

### FRENCH WAR MINISTER URGES PROMPT ACTION

### Bill Introduced Providing For Advancement—The Affair Is Not Yet Ended.

(Associated Press.)  
Paris, July 13.—This was the closing day of parliament, and it was largely devoted to the rehabilitation of Alfred Dreyfus, so that the national holiday to-morrow may witness his return to the army and the official effacement of the stain placed upon his good name.

The Chamber of Deputies met in the morning for the purpose of hastening the parliamentary procedure, and War Minister Etienne immediately presented two government bills, one raising artillery and another promoting Col. Picquart to that of brigadier-general. M. Etienne asked for speedy action, adding that it was the government's intention to inscribe Dreyfus' name on the list of candidates for the cross of the Legion of Honor. This announcement brought out a storm of applause. The bills were referred to the army committee, which at once went into session, approved them and drafted strong favorable reports which will be debated later. It is expected that both bills will become law before the close of the day.

The radical supporters of Dreyfus are seeking to force the government to prosecute the many generals, colonels and high functionaries responsible for his condemnation. The amnesty law protects them, but a movement is on foot to change this law for the purpose of reaching Generals Mercier and Gomez, Col. Dupaty and others who were instrumental in the prosecution of Dreyfus.

The government newspapers declare that the affair is closed, but others, notably the Figaro and the Echo de Paris, report that fierce reprisals are about to begin. The Figaro, however, appears to have been misinformed, obtaining a revision of Dreyfus' trial not to attempt to obtain vengeance.

The Echo asserts that the acquittal of Dreyfus means that politicians have seized the judiciary.

The prevailing tone of the press testifies to the scrupulous integrity of the court, and holds its decision as a triumph of justice.

## TROUBLE IN PERSIA.

### Students Release Professor—Heads of Clergy Demand Reforms Which Were Promised in January.

(Associated Press.)  
Tehran, Persia, July 13.—There is a recrudescence of political unrest among the Mullahs and divinity students which was noticed earlier in the year, and it is exciting great uneasiness in government circles.

The divinity students broke out in open opposition to the authorities yesterday, and forcibly released a professor who had been imprisoned on the charge of using seditious language. In an affray, a student was killed and two were wounded.

The heads of the clergy immediately assembled in the mosque and issued inconsistent demands for the immediate granting of the reforms previously promised in January.

All the shops except the butchers and bakers are closed, the city is patrolled by troops, and the Grand Vizier and other ministers who were in the country have hastily returned to their posts.

Constant conferences of the authorities are taking place, but the situation remains very strained, and nothing thus far has been done to satisfy the demands of the malcontents.

According to dispatches from St. Petersburg, January 22nd, a movement was on foot in Persia to obtain a constitutional government.

## THE CANADIAN TEAM

### WON KOLAPORE CUP

(Special to the Times.)

Bisley, July 13.—Teams of eight to-day competed for the Kolapore cup, seven shots at 200, 500 and 600 yards. Canada won the trophy by 9 points.

The Canadian team in the Kolapore match was composed of Caven, Victoria; Hayhurst, Hamilton; Kerr, Toronto; Nichols, Toronto; Semple, Toronto; Smith, Ottawa; Skeddon, Hamilton; Youhill, Winnipeg.

First Stage.

At the 200 yard stage the scores were: Mother Country, 247; Canada, 246; Guernsey, 241; Malay States, 240; India, 236.

Canadian scores were: Caven 29, Hayhurst 32, Kerr 33, Nichols 32, Semple 31, Smith 20, Skeddon 30, Youhill 28.

At the 500 yards Canada scored 245, Guernsey 242, Malay States 243, Mother Country 237, India 241.

The Canadian scores were: Caven 33, Hayhurst 32, Kerr 33, Nichols 33, Semple 31, Smith 28, Skeddon 31, Youhill 28.

At the 600 yards Canada scored 245, Guernsey 242, Malay States 243, Mother Country 237, India 241.

The Canadian scores were: Caven 33, Hayhurst 32, Kerr 33, Nichols 33, Semple 31, Smith 28, Skeddon 31, Youhill 28.

Canada won by nine points.

THE FINAL.

The scores at the six hundred yards were: Canada 221, Mother Country 236, India 228.

The Canadian scores follow: Caven 28, Hayhurst 32, Kerr 35, Nichols 34, Semple 32, Smith 28, Skeddon 31, Youhill 28.

Canada won by nine points.

## PENSIONERS AND PENSIONERS.

The ex-Ministers, including Hon. George E. Foster, are but human after all, with all the common human passions, including that of acquisitiveness, strongly developed, and we are not surprised that they organized strong opposition to the bill depriving them of their pensions. And yet we are sure neither Sir Charles Tupper, Sir Charles Hibbert Tupper, Sir Mackenzie Bowell, Hon. George E. Foster, Hon. J. Israel Tarte, Hon. Clifford Sifton, Hon. Mr. Blair, or any other beneficiaries whom we cannot recollect for the moment, will suffer for lack of provender. It has been hinted that Sir Adolphe Caron is not in the very best of worldly circumstances; but, like a wise man, he is said to have taken time by the forelock and commuted his life allowance for a handsome consideration cash down. The forehandness of the ex-Minister of Militia and Postmaster-General is held by some to have established the fact that Parliament has created a vested interest in setting up this pension scheme, and that hence it has exceeded its powers in proposing to wipe out the pension list. This is an interesting point, but we do not think it will be received very seriously either by Parliament or by the people whom Parliament represents. It is hinted that the courts will be appealed to, and it would indeed be a curious thing if the courts were to hold that the highest court of all, even if it be not a sovereign body, but subject to the Imperial House, has not the power to undo that which in a moment of precipitation it did. We admit it must have been a severe shock to the ex-Ministers when they were awakened to consciousness of the fact that a provision which they assumed was assured them for life was about to be taken away, and we sympathize with them in the rudeness of their awakening. But after all public opinion is supreme, and there is no manner of doubt that public opinion will uphold the House of Commons in its action. Even the humane desire of the opposition in the Senate to protect the interests of its friends cannot be permitted to stand in the path of the popular desire.

## SCHOOL SYSTEMS.

It is possible that the people of this material and evanescent world are becoming altogether too tolerant in their views—that the vast majority are too prone to make allowances for the environment and upbringing of their neighbors. But there are still a few persons left of another class, who become exceedingly sad and sometimes wax furious because of what in their active imaginations they believe to be the encroachments of ecclesiasticism—that is of the ecclesiasticism to which they are antagonistic. It is to be feared there may be a very large mote in their own eyes, which they perceive not, being so intent on their endeavors to cast out the beam they conceive to lie in the eyes of their neighbors. Certain preachers of the gospel of goodwill towards men yesterday attacked in language a few degrees above the temperature of the thermometer, that was considerably higher than the average in Victoria, the School Acts which have been passed in the new provinces of Alberta and Saskatchewan. We commend them for their disinterested zeal in the sacred cause of human liberty and religious toleration. And yet the electors of Alberta and Saskatchewan, a strong, virile, self-reliant, energetic and independent community, the flower of the population of this robust Dominion, may, we think, be trusted to jealously guard their position as the heirs of that form of freedom which is the in-

alienable right of every British subject. In the one case they accepted the school act by what was practically unanimity, in the other by an overwhelming majority. They accepted the broad Western view that the time has come in the history of the world for men to put aside all the petty, narrow, we might almost say contemptible, superstitions which have been the cause of so much ignoble strife, which have divided men asunder, which have excited passions more worthy of savages than of enlightened human beings, and which have provoked indefensible wars and a deplorable amount of bloodshed. Will the reverend brethren also be pleased to note that the English Education Bill now before the British Parliament is cast practically upon the lines of the measure which has been given the people of Alberta and Saskatchewan, and that their brother ecclesiastics of extreme views are attacking the bill with all their might and bringing every resource at their command up in opposition to it.

We fear the reverend monitors in the instance under consideration, and as we grieve to say they are but too prone to do, spoke in ignorance. There can be no sectarian teaching in the schools of the new provinces during the regular hours of instruction. Children who desire to remain after the ordinary routine has been completed may be instructed in accordance with the desires of their parents. The privilege of giving such instruction is open to clergymen of all denominations. The wisdom or the expediency of this provision has been assailed by those who believe in a purely secular system of public schools; but are the clergy, in view of their persistent denunciation of what they term "godless schools," prepared to ally themselves with the secularists?

## HOLY ROLLERS' AND OTHERS.

The Times when it held that justice could not be administered on purely sentimental lines without eventually entailing serious consequences did not anticipate that its prediction would meet with almost immediate justification. While there may be no law upon the statute book under which the creature-Cremfield could have been punished in accordance with his deserts, still it is manifestly a dangerous thing for juries to proceed on the assumption that persons against whom wrongs may have been committed either directly, or indirectly through their families, shall be privileged to act as juries to convict, judges to sentence and executioners to carry out the decrees of such courts of unlimited jurisdiction. The slayer of Cremfield, after the usual "trial," was acquitted amidst the applause of the morbid multitude assembled in anticipation of just such a result. But in the meantime another court had been constituted, consisting of the wife of the murdered Cremfield and the detained sister of his slayer. The sentence of the latter tribunal was executed with promptness. Two victims have been sacrificed already in this court of sentimental justice. What is the regularly constituted system of justice administration going to do with the murderers? It is quite evident that she is possessed of a similar chain of sentimental, disordered ideas as the brother whom she gave such speedy dispatch and has no doubt whatever in her unblinded mind that she has performed a commendable act. If ever there was a case of "emotional insanity" this unhappy girl is indubitably insane. She ought to be acquitted if juries are influenced by precedent. There are a considerable number of cases awaiting trial in the courts of the United States bearing a more or less close analogy to that of the unfortunate Esther Mitchell, but none quite so deplorable in its circumstances. It seems that trial by jury, although it has in the past endured the test and proved one of the bulwarks of popular liberty, is itself on trial in the United States. If the rigid tenets of justice are going to be made completely subordinate to the sympathetic emotions of the heart, and also to other influences not quite so natural, the time is drawing near for the substitution of some form that will be more effective for the suppression of crime—something that will take but little tent of the too common plea of "emotional insanity."

As having a certain degree of pertinence to recent occurrences in the neighboring state of Washington and other places more remote, we quote the following from the New York Post: The ancient authors were wrong in regarding love as a "morbidity" of mind; but modern writers are right in recognizing it as a cause of crime. M. Proal, a French magistrate, published a book, "Le Suicide Passionnel." Of especial interest is his distinction between the love which prompts suicide and that which incites to murder. The sentimental lover remains tender, resigned and unhappy. He would rather suffer than cause suffering to others. He does not commit murder, although he may be driven to suicide. "The love which kills, poisons and causes suffering is sensual love. It makes its subject malicious, cruel, and vindictive."

# THE STERLING FOUNTAIN PEN

POINTS OF SUPERIORITY

## A NON-LEAKABLE MIDDLE INK JOINT

A strong and absolutely non-leakable ink joint is placed in the middle of the barrel away from the finger grasp, so that it is impossible for the hand or fingers to come into contact with it, no matter how the pen may be held in writing.

## NO SWEATING OR OVERFLOW OF INK

In pens provided with the large ever-fitting cap the condensation of ink evaporation, called sweating, and the frequent overflow of the ink on to the finger grasp under the cap, has always been a cause of much annoyance. This is avoided in the STANDARD FLANGE PENS by reason of the joint made at the extreme mouth of the holder.

## A PERFECT FINGER GRASP

The Flange at the end of the holder makes a comfortable finger grasp.

## THE EVER FITTING CAP

The additional bearing given by the flange fitting into the cap causes the cap to fit securely at all times. It cannot be loosened by falling or come off in the pocket by being jarred or pressed against.

## GENERAL EXCELLENCE OF QUALITY

In addition to the above, there is a superior excellence of finish and writing quality that makes the Standard Flange the best Fountain Pen ever produced.

**C. E. REDFERN, 43 Govt. St.**

In like manner while physical jealousy may lead to homicide, moral jealousy may lead to suicide. From this it would appear that, in the undeveloped man, the murderous passion is associated with animal love. The egoism of passion is what drives men to commit acts of violence. It is the altruistic, unselfish sentiment which leads the unbalanced sufferer to raise his hand against himself. M. Proal recognizes the fact that imitation plays an important role in criminal acts; and he attributes this vicious contagion, among other causes, to a certain kind of action. Just as Goethe's Werther glorified for a time the suicidal lover, so modern novels and poems have exalted the passions of love and jealousy in a way to put them above the moral law. M. Proal holds that love may furnish extenuating circumstances, and in dealing with crimes of passion he would have these extenuating circumstances considered. For the sake of justice and of the general welfare, it is fortunate that the common people and especially that juries are not called upon to settle these subtle questions of psychology and causality. Scientifically considered, the criminal code may be a rude and even a clumsy weapon, but it is usually wielded with sufficient skill, and in the interests of public security and happiness.

## MODEL FARM BUILDINGS.

Instructive Bulletin Issued by Department of Agriculture for Farmers, and Others.

Bulletin No. 18 of the provincial department of agriculture was issued today. It is entitled "Model Farm Buildings," and was written by F. M. Logan, B. S. A. Accurate descriptions, accompanied by working drawings and specifications, are given of various kinds of barns, cow stables, horse stables, silos and dairy buildings. These are all designed by Mr. Logan, and contain the latest and most useful contrivances for increasing the usefulness of each building named.

The pamphlet contains 20 pages and was issued by the King's printer. An extract from the introduction shows the reason for issuing the bulletin. It says: "So many plans have been drawn and issued for farm buildings, that it has become difficult to find a plan that would be an improvement on those already in existence. In spite of this fact, I am taking the opportunity of presenting plans and specifications of farm buildings, which, I believe, are different from any before shown, and which, I trust, contain sufficient merit to warrant their adoption by the public."

Copies can be obtained by those interested from the department mentioned.

Bioscope and Orchestral concert, Gorge park, to-night-free.

## ORANGEMEN MEET AT BEACON HILL

(Continued from page 1.)

The heat speech was the principal one of the day. W. G. Chaplain, Bro. Merton Smith, of the Congregational church, Vancouver, Mr. Smith is an able platform speaker. His style is well adapted to hold attention. As he stated in his speech yesterday he has not been a member of the Orange order for a very long time, only three years, but he added that the principles which the order represented were those which he has been taught from his birth, and which he represented. Rev. Mr. Smith has lived for years in the United States, having been a coadjutor of the great Evangelist Moody. Yesterday afternoon, "address" closed with a very "impressive" appeal to the members of the order to live consistent lives, to embrace the full teaching of the Bible which they sought to maintain as an open book.

In opening he said that he agreed with Mayor Morley in the expression of the hope that there would not have been any need to continue sectional fighting in the west. They had proved a mistake, but the Orangemen had not been the first to unsheathe the sword. The greatest fault he had with Orangemen in Canada was that they were too ready to bury the sword. Orangemen of all classes were the tolerant men. They had no quarrel with any man's religion. He could not understand an Orangeman being other than a Christian. Orangemen objected to Roman Catholics taking anything away from the Bible. Every man should have the free choice to say whether he should go to heaven or hell, and the Orange order stood for freedom of thought, freedom of speech, freedom of worship and freedom of action where it did not interfere with others were demanded by Orangemen. If that was denied by anyone Orangemen claimed the right to fight. He hoped the time would never again come when an appeal should be made to arms. If it did come he thought fifteen days would settle it.

Rev. Mr. Smith then went into the history of the troublous times which brought the Orange family into prominence in Europe. The noble character of William the Silent, the founder of the line from which King William descended, was referred to. The speaker pointed out that William the Silent while yet a Roman Catholic stood for toleration at the time of the persecutions and consequent slaughter of the Protestants.

Coming to the principles of Orangism he said that there might be no order without being a true Christian. He admonished them against closing the Bible by their own free will.

They would never again, he believed, return to the reactionary mode. Religious toleration was here to stay. He would turn and fight for the Roman Catholics if the attempt was made to deprive them of their rights. But Roman Catholics had seized high places. It was reported, but he would not vouch for the truth of it, that Jesuits were regularly ordained in the pulpit there would be nothing to save the liberty of the world for a month. If Rome could but win back the Imperial crown, the work would be done. While the numbers of the Roman Catholics might not be increasing in the country it must be acknowledged that the prestige of the Roman Catholic factors had improved. An evidence of this was shown in connection with the separate schools in the Northwest provinces when last year a Protestant majority in the Dominion government had submitted to the practical effect of the open dictation of Sharnahy. If they were not satisfied with the conditions the speaker admonished his hearers to become Orangemen. "I cannot recommend you to become Conservatives," he said, "for they are just as bad. I cannot recommend you to become reformers—those that such a name should be so degraded." If the Orange membership was doubled this would be settled.

A worse shame to the British people since the year in connection with Princess Euph. The change in faith of the princess prompted the speaker to pay a glowing tribute to the memory of the late Queen Victoria and to the prestige of His Majesty King Edward. The Protestant succession, he said, never seemed firmer than it was today. The British dynasty and the Protestant succession, two of the great factors, seemed secure. What of the remaining one, the open Bible? By selection of the Bible the most dangerous factor was being put in effect. He could never understand how an Orangeman could take the vows of the order without being a true Christian. He admonished them against closing the Bible by their own free will.

They would never again, he believed, return to the reactionary mode. Religious toleration was here to stay. He would turn and fight for the Roman Catholics if the attempt was made to deprive them of their rights. But Roman Catholics had seized high places. It was reported, but he would not vouch for the truth of it, that Jesuits were regularly ordained in the pulpit

## Off For Your Holiday?

Every year more and more people become converted to the change and out-of-door gospel and start merrily for mountains and across the seas. New scenes and new ways mean stimulus and invigoration, and the same people come trooping home again with minds full of memories and bodies toned by a most rest vacation.

It's worth remembering that the more carefully your vacation is planned for the more satisfactory it will be. Give plenty of consideration to yours.

**Suit Cases, Bathing Suits, Caps and Shoes, Stationery, Bath Robes, Dinner Blouses, Chiffon Veils, Steamer Rugs, Etc., Etc.**

## ON KEEPING COOL

SOME ADVICE TO MEN who want to keep cool. First, break up that thermometer next, don't worry. Eat little and drink less. Finally—and this is the most important—

## Wear the Proper Clothing

Strip off that heavy underwear that sticks to you like fly paper; put on a pair of these cool, light knee drawers made of thin, open mesh cotton, that cost only 75c, a pair. Then pull over your head one of these soft, thin cashmere shirts with short or long sleeves, at 75c and \$1.00.

Better still, if you like them, wear a union suit of cool silk and Lisle, \$1.75. A union suit, you know, takes away that bunchiness around the waist and stops you worrying how to hold up your drawers. Your stockings should be thin cotton or Lisle.

Cotton, 12½c, 15c, 25c.  
Lisle, plain or fancy, 25c, 35c, 50c.  
Your shoes should be low cut—tan is coolest, but perhaps black is more liked. Have a look at our \$2.50 values, worth much more.

Your shirt should be of the soft shell variety, either percale Madras flannel or silk, ranging in price from 75c to \$6.50.

No Vest and No Suspenders, please. A belt which costs 25c, to \$1.20, will keep your trousers well "set up," and the coat will keep you "dressed up" although you feel as negligent as in a bathing suit. The suit should be one of our cool, light weight grey worsteds, which are now selling at \$12.75, worth \$20.00 to \$25.00.

Your Hat, straw, of course. A soft brim is most comfortable, but those who would like a felt cannot do better than try one of our light weight Bossalino Hats at \$5.50, the lightest hat made.

The collar should be linen—medium turnover—the Spencer two for 25c, and the tie a washing Derby at 12½c to 50c.

Use this advice as you please; it costs nothing; it is only meant to show that the men's store can fit you up in a jiffy for less money than you expect, and especially now during our 27th Annual Sale.

of the land, that on all the great English newspapers Roman Catholics were occupying important places, that Roman Catholic soldiers throughout the empire were being trained in the art of war. This might not be true and he gave it for what it was worth.

If Orangemen had rights of freedom Catholics had the same rights. How were they to be fought, then? It was to take down the unused Bible and read it and bend the heart to its teaching. He could not impress this too strongly upon the members of the order.

Rev. W. W. Cranston, of the Anglican Church, spoke of the absence of an account of illness.

While the speaker was not an Orangeman he believed at heart he was one. He was with the order in its advocacy of toleration. He commended them for taking an active interest in all that was going on in the country and defending the principles of Protestantism.

This concluded the addresses, and without ceremony the crowd dispersed. A good number attended the baseball game between the Hillside of Victoria and the Nanaimo team, which is referred to in the sporting column.

In the evening the Fifth Regiment orchestra provided music at the Gorge park.

In addition to this the popular bioscope pictures were displayed under the management of Mr. Denham. The visitors appreciated very much the palus taken to provide them with what proved to be a most enjoyable evening. Most of the visitors left last night for their homes. A few have remained ever until to-day.

The government Peace River exploration party, consisting of Provincial Mineralogist W. E. Robertson, Wm. Haggerty and Harold Nation, left for the north by the Princess Beatrice last night.

In the police court this morning an inmate of a house of ill-repute was fined \$50. The case of Battle-Leverson, in which the former accused the latter of common assault, came up and was withdrawn.

Mayor Morley has received an invitation to present a paper at the annual convention of the Union of Canadian Municipalities which will be held from the 14th to the 16th of August in Halifax. It is his intention to take advantage of the opportunity to write a paper on "Victoria as a Place of Residence."

Watson Clark, of Oaklands, has entered an action for \$10,000 against the Times for an alleged libel appearing in Tuesday's issue stating the facts given in official reports regarding the discovery of gelatine in cream taken from his cart. The writ was served late yesterday afternoon. He also threatens similar actions against the city, Mayor Morley, Dr. Richards, Dr. Tomic and D. E. Whitaker, assistant assayer.

Provincial fishery inspector, J. P. Babcock, returned last night from a visit to the hatchery at Seton lake, near Quebec. Everything was made ready for the coming season's hatching, the building and apparatus being in perfect order. The two men who remain constantly on duty have carried out their work successfully, and the inspector stated this morning the run of fish will commence within four or five weeks.

Good news was received from the whaling station at Sechart this morning. The weather has been fine for several days and the catch of whales has been very large. In all eleven were killed during the past week, nine being humpback, one sulphur and one finback. This is the record catch made since the whaling station started. Those operating at the station say that they hope to keep up the record for the next two months.

A practice shoot will be held by members of the Capital Gun Club tomorrow afternoon at Willow's traps. There should be a large attendance as aspiring marksmen intend losing no opportunity to get in shape for the many cup competitions scheduled to take place during the ensuing months.

On exhibition in the windows of Picton & Lenfesty, Johnson street, at the present time, are a few of the principal trophies which will be completed for this season. They will include the Curtis & Harvey cup, Peters Cartridge Co. trophy, Buchanan cup, Dupont Powder Co. trophy, Willow's cup and Dominion Cartridge Co. medal. These contests will all take place before the end of August with one exception, that of the Buchanan trophy. It will be reserved for the winner of the shoot to be held in connection with the annual fall exhibition under the auspices of the B. C. Agricultural Association.

## MAYOR OBJECTS TO TOO MANY HOLIDAYS

Thinks Employers and Clerks Might Have Reached More Satisfactory Understanding.

The action of the merchants in granting a weekly half-holiday to their clerks and other employees during the summer months has occasioned considerable adverse comment in many quarters. As stated in these columns several days ago, while agreeing with the desire of the majority, did "unwillingly" arguing that it was not advisable to close down the commerce of the city regularly, especially during the season when so many visitors passed through. They pointed out that the clerks had a much easier time now than was the case several years ago. All stores were closed at 6 o'clock sharp with the exception of Saturday, even-ings.

In an interview with His Worship Mayor Morley the latter expressed his views upon the question without hesitation. He acknowledged that those principally concerned were not to blame for wanting to obtain as much freedom of leisure during the summer days, but doubted the wisdom of closing all places of business for a half day at the time tourists visited the place in large numbers. In his opinion it would have been quite possible to give the clerks more time for recreation and pleasure without interfering with commercial pursuits to the extent that was threatened. He did not like to see business at a standstill and the town "dead" from a commercial standpoint in the middle of the week because of the false impression and the possible inconvenience it would occasion to outsiders. He believed the advisability of the move was very questionable, looking at it in a broad way.

There were very few employers who, if properly approached, would not have agreed to allow a portion of their staff off at stated intervals. Had this been done the clerks would have gained their object without necessitating the closing of all places of business as frequently as was proposed.

Asked whether it was the intention to declare a public holiday on Thursday, the 26th inst., His Worship stated that in all probability such a step would be taken. He could not do so, however, unless he received a general consent from representative citizens.

If the declaration of a holiday would contribute to the success of the merchants' picnic he saw no reason why it should not be done. The matter would be referred to the city council.

## LAID AT REST.

Impressive Ritual of Eagles Recited Over Remains of Emmet McD. Ewing.

With simple and impressive ceremonies the remains of the late Emmet McD. Ewing were laid at rest yesterday under the auspices of the Presidium of Eagles, the members of which attended in a body with a number of intimate friends of the deceased, says a Fresno paper of July 5th. The funeral services were not elaborate, as services had already been performed in Victoria prior to shipment of the body to the home town. The funeral took place in the undertaking chapel of Shannon & Beall. A large number of beautiful wreaths were given by sympathetic friends, and the splendid assortment of floral tributes which accompanied the remains from the north were also laid around the casket, the faded with the fresh, and presented a touching testimony of the high regard in which the dead man was held in two cities.

The graveside ceremonies were conducted by the Eagles with their beautiful ritual, and all six pall-bearers were brother lodge members of the deceased. They were Judge G. W. Smith, Edward McGinty, Jerry Macdonald, Sheriff Police R. M. Devos, Charles McCord and F. E. Feinty. The interment was in Mountain View cemetery, where a handsome monument will be erected.

## PERSONALS.

Hon. Richard McBride left last night for Seattle by the Princess Beatrice. It is possible he will visit Allyn before returning to Victoria.

It would be a good idea if a prominent notice were placed in the provincial museum giving the location of the mineral exhibit in the fear of the parliament buildings. A Times reporter was stopped by four different people within a few minutes who asked where the minerals were displayed.

Orchestral concert and bioscope, Gorge park to-night—free.

A man, shaving regularly till his beard, 14th year, came off today's work of seven.

## TRIAL TRIP OF THE TUG PETREL

SHE MADE HER DEBUT YESTERDAY AFTERNOON

Extra Trips to Be Made on the "Frisco" and Alaskan Routes—Shipping Notes.

The Petrel, the new tug built by the Victoria Machinery Depot for the Dominion government, made her trial trip yesterday afternoon. She amply reached the expectations of her builders and the stiff requirements exacted by the inspectors, Messrs. Kermode and Foster, and it is no exaggeration to describe her as one of the neatest little steamers of her kind on the coast. She is also an excellent advertisement for the firm which turned her out, her every point showing evidence of the most careful attention and skillful treatment.

There were circumstances in connection with the trial spin which demand more eloquence than the humble writer of this account can roll off without a single word. The official trial spin was held for the benefit of the tug, which holds a blue pencil aloft like the sword of Damocles. This report might abound with such elegant and opulent expressions as the "sun-kissed, sizzling waters of the straits with the costliest ramparts beyond," and so forth. But the reader will be spared any additional flourish while the heat wave is on, so a plain statement of fact must prevail. Undoubtedly, however, the trip was one of exceptional pleasure, although pleasure was not its primary object, and those who made it were assured that it was entirely successful.

The Petrel left the old custom house wharf at 2.30 or thereabouts with Veterans' command in command, A. J. Rechter, manager of the Victoria Machinery Depot, who was taking his leave of her, acted as host, and among his guests were G. A. Keefe, engineer for the public works department of the Dominion government, C. A. Topp, city engineer, G. M. Tripp, of the B. C. Electric railway, Mrs. Foster, wife of the engineer of the tug, and her son and others. Wm. Houston, superintendent; Oliver Richards, foreman, builder, and Mr. Barker, draughtsman of the building firm, were likewise in attendance, while Mr. Kermode, who has been acting as one of the inspectors, was also "on deck," figuratively and literally.

The weather was perfect for an ordinary test, but it would have been more satisfactory had there been something like a sea to test the riding ability of the new boat. If she acquits herself in the rough as well as in the calm, however, the most cautious critic on the opposition organ will be unable to find fault. She made a splendid run to the quarantine station, moving freely and easily without vibration. She showed herself able to cover the distance between the outer dock and the little domain presided over by Dr. Watt in three-quarters of an hour, which an hour.

The Petrel is eighty-five feet long between perpendiculars and ninety-five feet over all. She is fourteen feet beam and draws ten feet six and eight inches forward. She was built of steel, her deck being of Australian beechwood and her rails are of fir. She is most staunchly constructed, and will stand all the wear and tear the elements may subject her to. Builders will, perhaps, better appreciate her points by a brief inspection of her. She has a forward collision bulk head, and every essential to an up-to-date steam tug is in evidence.

She has accommodation forward for eight men, and aft for six men. Her cabin is commodious, relatively speaking, and neatly furnished and well lighted. She is fitted up with splendid machinery, her engine equipment developing 200-horse power (actual). The Petrel, needless to say, will be equipped with all the towing facilities, and will be able to handle anything that is likely to offer in the course of her duties.

She was roundly toasted on the trip, the whereabouts being liberally provided by the host, and the general conviction was that the Petrel would make her mark in the service. Mr. Keefe expects shortly to make a trip of inspection up the coast in the new tug.

## SPECIAL TRIPS.

Traveling exceptionally heavy, the Pacific Coast Steamship Company have arranged for an extra steamer on the "Frisco" and Alaskan routes. The City of Topeka, which has until recently been in the Northern service, is to be sent south to the Bay City to-morrow. She will leave Victoria at the regular sailing hour of the "Frisco" steamers and will relieve the company of accumulated business which the City of Puebla, sailing for the Golden Gate on Wednesday evening, was unable to handle. The City of Topeka carried a full load. Every cabin on the steamer was filled with people going to California, but she could not carry all.

The other special trip, for which the company has arranged is that for which the City of Seattle will be requisitioned. She will leave Victoria on the 26th inst., the same day as the Spokane sails. She will carry an Eastern excursion, and in addition a number of passengers from the Coast. A reduced rate for the City of Seattle will be offered. Tickets for the round trip will be sold for \$60. The City of Seattle will make exactly the same trip as the City of Topeka, and is expected, will be crowded with passengers.

## SAILORS ARE SCARCE.

The lumber laden British barque Pass of Leno, with cargo from the Hastings mill for Capetown, South Africa, is expected from Vancouver to-day. She is coming to the Royal Roads to complete her crew. After waiting several days at the Terminal City for sailors the vessel was only able to secure nine men. Sailors are scarce in British Columbia, and on Puget Sound, and Vancouver is no ex-

## The Work That Requires Hand Ironing

The dainty summer garments of the gentler sex are a specialty of ours during the warmer months. We have ironers for this work who do nothing else, they are experts at it, and it is only reasonable to say that they can launder such garments much nicer than they can be done at home. Our way saves you a whole lot of hot, tiresome work too.

## STANDARD STEAM LAUNDRY

ception to the rule. Port Townsend is similarly situated and at present has four vessels waiting crews.

## SHIPPING NOTES.

Two vessels under charter to load lumber cargoes at the Hastings mill are expected to arrive about the end of the week or early in the coming week. The British ship Cleonore, 1,670 tons, which sailed from San Francisco some time ago, will load for London. The British barque Inverloch, 1,200 tons, coming up the coast in ballast from Guaymas, Mexico, will load lumber for the United Kingdom.

M. S. Shearwater leaves Equimatt on route to Behring Sea to-morrow. She will proceed to Cowichan, where she will wait a mail, after which she will go north to patrol Behring Sea during the sailing season. The British steamer Greenwhich, owned by Watts, Watts & Co., has been chartered to load a lumber cargo at the Hastings mill for Egypt. She will load about 2,000,000 feet of lumber.

Steamer Princess Beatrice sailed for Skeena river ports and Skegway last night, carrying a good many passengers and considerable freight.

R. M. S. Arand will leave Victoria for the Antipodes on Friday next.

Bioscope at Gorge to-night.

Out of 200,000 newspapers compressed by hydraulic machinery on American coast, constructed a yacht 15 feet long. Every part, including the masts and sails, is of paper.

## A Serious Question.

A persistent bad cold will run its course through the system, and if not relieved in time. So it is with the little daily wants of the people—they grow serious if not promptly filled. You can afford, for instance, to have that house tenantless for a little while, but who continues tenantless month after month it becomes a serious matter. The timely "want" ad. ends the trouble.

## NANAIMO VICTORIOUS

When the Hillside and Nanaimo teams lined up to try conclusions yesterday afternoon a large crowd assembled to witness the struggle. The match took place at Beacon Hill and resulted in a win for the visitors by a score of 11 runs to 3. The grounds were in excellent condition, it being impossible to put up any kind of an exhibition upon them. Players slipped and tumbled at every move, making the play exceedingly uncertain throughout. Then the heat seemed to take the spirit out of the contestants, and the one thing was to get the game over as quickly as possible.

Up to the sixth innings the Nanaimo team had gained a lead of five runs, the score then standing 7 to 2. About that time a decision of the umpire appeared to dissatisfy the Hillside, and in their discontent they took the importance of keeping their heads in the game. For supremacy on a baseball diamond, the visitors took advantage of the opportunity and soon had placed themselves so far ahead that nothing but exceptional good fortune could have enabled the home team to equalize matters. The last few innings, therefore, were listless and uninteresting. F. Jewell acted as umpire.

Following are the detailed scores:

Nanaimo		Hillside	
T. Aikens, c.	5	0	2
Ashman, r.	5	2	0
Gordon, 3d b.	5	1	2
Graham, 2d b.	5	2	2
Farmer, 1st b.	5	2	2
Little, s.	5	0	0
Wilkinson, c.	5	2	0
Aiken, 1st b.	5	1	0
Greenwell, p.	5	1	0
Totals		31	10
Hillside		4	11
F. McConnell, s.	5	0	1
Watlett, 2d b.	5	1	3
Jeffs, c.	5	0	2
Anderson, 3d b.	5	1	1
Northcott, c.	5	0	1
H. McConnell, r.	5	0	1
McQuade, 1st b.	5	0	1
Fuson, 1st b.	5	0	0
Peden, p.	5	0	0
Totals		31	10

Summary—Earned runs, Nanaimo 4; Hillside 2. Three base hits, Aikens. Home runs, Anderson. Hits on balls, off Peden 2, off Greenwell 3. Struck out, Peden 7; Greenwell 5. Hit by pitcher, Peden 2. Wild pitches, Greenwell 1. Passed balls, Northcott 1. Stolen bases, Wilkinson. Farmer, Watlett 2, Jeffs 2. Left on bases, Nanaimo 9; Hillside 4. Umpire, F. Jewell.

## ATHLETICS

## SCHOOL SPORTS

The annual Collegiate school sports were held yesterday afternoon at the Laurels, Belcher street. There was a large and fashionable attendance. The weather was ideal, the competition exciting, the musical programme rendered by the Fifth Regiment band all that could be desired, while the hospitality extended by Mr. and Mrs. Laing completed the pleasure of their many guests.

In welcoming the visitors, Mr. Laing delivered an address in which reference was made to the success of former pupils at McGill and the Royal Military College, Kingston. Mentioning the publication of a school magazine, he spoke of it as a mark of progress. In his opinion, it was a most creditable production and should be accorded the support of students and parents alike. Mr. Laing's optimistic remarks were received with enthusiasm.

The grounds and grounds of the Laurels were looking their best. It was about 2:30 o'clock when the first event was called, and from then on the programme proceeded smoothly, every possible attention having been given the details by the committee in charge, the personnel of which follows: President, J. W. Laing; Judges, L. O. Garnet and R. N. Bates; starters, J. C. Barnack, assisted by the right senior boys of the school as stewards.

At the conclusion prizes were distributed. These were contributed by the following: Mrs. Dunsmuir, Bishop and Mrs. Perrin; Mrs. M. S. Davys of Nelson; Major King, R. E. Barnes of Macleod; Dr. Holden, Mr. and Mrs. Sterling of Kelowna; Mrs. T. N. Hibben, G. A. Kirk, Col. A. W. Jones, Mr. and Mrs. A. P. Luxton, I. Goodacre, R. Smith, P. A. Pauline, C. E. Redfern, Richard Hall, M. P. P. W. R. Ross, M. P. P. Mr. and Mrs. R. V. Winch of Vancouver, W. E. Langley, S. J. Pitts, D. E. Campbell, E. A. Wilnot of Vancouver, R. H. Bates, D. Spencer, and Mrs. P. Peter.

Following is a complete list of the winners:

Broad jump, under 14-lb., W. Ross; 2nd, Stoddard—12 feet 6 inches.

Broad jump, over 14-lb., R. F. Winch; 2nd, N. Hall—16 feet 4 inches.

High jump, under 14-lb., Stontelth; 2nd, H. Hall—4 feet 6 inches.

High jump, over 14-lb., N. Hall; 2nd, R. F. Winch—4 feet 4 inches.

Throwing cricket ball, under 13-lb., B. Monaghan; 2nd, C. Stottelth.

Throwing cricket ball, over 13-lb., R. F. Winch; 2nd, N. Hall—91 yards.

Three-legged race, over 13-lb., Hall and Winch; 2nd, Edmondson and Wood.

Three-legged race, under 13-lb., Hollister and Smith; 2nd, Bald and King.

100 yards handicap, under 14-lb., Hollister; 2nd, W. Ross.

Quarter mile handicap, over 14-lb., Winch; 2nd, Wood.

200 yards handicap, under 12-lb., Hollister; 2nd, Rogers.

## PICNIC AT THE GORGE

Picture Awarded to the Mothers' Club Gathering on Wednesday.

The Mothers' Club had a very successful picnic at the Gorge on Wednesday afternoon. There was lively competition in the cake and bread contest, and the judges were two uninterested ladies. They found their task a hard one, but finally decided to award the prizes as follows:

Bread—1st, Madeline Davies (11 years); 2nd, Marjorie Adams (14 years).  
Best cake (girls)—1st, Bena Brynjolfson (11 years); 2nd, Madeline Davies (11 years); 3rd, Olga Ross (11 years); 4th, Mrs. Adams (14 years).  
Best cake (boys)—1st, Harold Dean (11 years); 2nd, Kenneth Dean (11 years).

A number of races then took place, the results being as follows:

Girls (under 4 years)—1st, Margery Switzer; 2nd, Winnie Holligan; 3rd, Doris Graves.  
Boys (under 4 years)—1st, James Jaur; 2nd, Walter Brynjolfson; 3rd, Gordon Munson.  
Girls (under 6 years)—1st, Dora Hallan; 2nd, Jean Adams; 3rd, Lillith Erskine.  
Boys (under 6 years)—1st, George Sherwood; 2nd, Percy McCleary; 3rd, Harcourt Holligan.  
Girls (under 8 years)—1st, Addie McGrover; 2nd, Christabel Halley.  
Girls (under 10 years)—1st, Violet Davis; 2nd, Jennie Althouse.  
Boys (under 10 years)—1st, Ross Mann; 2nd, Percy Meyer.  
Girls (under 12 years)—1st, Juanita Crowther; 2nd, Dilsie McLean.  
Boys (under 12 years)—1st, George Ritchie; 2nd, Bob Dalziel.  
Girls (under 14 years)—1st, Madeline Davis; 2nd, Annie Mann.  
Boys (under 14 years)—1st, Charlie James; 2nd, Bob Dalziel.  
Wheelbarrow race—Wilfred Pomeroy and Harold Dean.  
Three-legged race—Madeline Davies and Violet Davies.  
Thread and needle race—1st, Madeline Davies; 2nd, Marie Sweeney.  
Egg and spoon race—1st, Madeline Davies; 2nd, Ella Dalziel.  
Gentlemen's button race—1st, Mr. Galbraith; 2nd, Mr. McNeill.  
Ladies' nail hammering—1st, Mrs. Davies (15 sec.); 2nd, Mrs. George (6 sec.); 2nd, Miss Preece.

The prize for the finest baby was finally awarded to Carol Watt eleven months, and the committee of gentlemen quickly disappeared.

## GAZETTE NOTICES

Announcements Contained in This Week's Copy of Official Organ.

The Gazette this week contains notices of the following appointments: Geo. Murray, J. P. of Nicola, to be a mining recorder for the Nicola mining division, of the Kamloops district, with recording office at Nicola, from August 1st, 1906.

James Bates, of Cranbrook, to be a deputy game warden for the Cranbrook electoral district.

Samuel Smith, of Dewdney, Edwin Bush, of Mission City, J. F. Harris, of North Nicomen; Amos P. Thompson, of Nicomen Island; Ole Lee, of Whonnock; John Blaney, of Port Haney; H. W. Benson, of Port Hammond, and E. A. Atkins, of Coquitlam, to be fence viewers in and for the Dewdney electoral district.

Joseph E. Harris, of New Denver, to be a member of the board of license commissioners for the Slokan license district, in the place of Joseph V. Purviance, who has left the district.

Hon. R. G. Taitow, minister of finance, to be acting minister of mines during the absence of Hon. Richard McBride from the city of Victoria.

The under mentioned persons to be commissioners for taking affidavits in the Supreme court, for the purpose of acting in the Provincial Elections Act in the electoral districts in which they reside. Such appointments will expire December 31st, 1906: Cranbrook, Robert Prentiss Moffat, Andrew McCowan, John J. Norquay, James Edgar Davis, Noel Arnold Wallaher and Scott MacDonald, all of the city of Cranbrook; Kaslo, Frederick Munro, of Trout Lake.

The appointment of Fred Peters, K. C., as a commissioner under the Public Inquiries Act is noted. He is authorized to inquire into and report upon all matters concerning the action of the department of lands and works in connection with the notice dated September 29th, 1905, inviting tenders for the purchase of government property situated at Laurel Point, Victoria harbor, known as lot 570B, Victoria city, and that the first meeting pursuant to the said commission will be held in the Maple room, parliament buildings, on Monday, July 23rd, 1906, at 11 a. m.

Oak Bay is by notice made a school district, the bonds being the same as those of the municipality of Oak Bay.

The Penticton Farmers' Exchange and the Stock Breeders' Association of British Columbia have been each incorporated.

The following companies have been incorporated:

Mills & Williamson, capitalized at \$20,000. Stevedore Gold & Coal Mining Company, with a capital of \$1,250,000. Vancouver Store Pictures Company, with a capital stock of \$10,000.

The Fraser River Oil & Guano Company, of England, is given a license as an extra provincial company to do business in the province with T. F. E. Kinnell, of Vancouver, as attorney for British Columbia.

Col. Hunsicker, Manager of European Agency, Has Resigned.

London, July 13. Col. Hunsicker has resigned the management of the European agency of the United States Steel Corporation, in consequence of some friction for some time between Col. Hunsicker and James A. Farrell, president of the United States Steel Corporation. Once before it is stated the colonel handed in his resignation for the same reason, but W. Corey, president of the United States Steel Corporation, persuaded him to withdraw it. In consequence of a further renewal of the disagreements, Hunsicker cabled his resignation, which this time was accepted.

Lightning clouds are seldom more than 700 yards from the earth.

## An Enemy of The King

By Hagenbuch Wyman

her eyes to be believed? Were not truth, goodness, gentleness, love, written on her face?

Yet, how went the gypsy's song—the one we had heard him sing at Godeau's Inn, by the forest road? "But, ah, the sadness of the day—When woman shows her treason! And oh, the price we have to pay—For joys that have their season! Her look of love is but a mask—For plots that she is weaving, Alas, for those who fondly bask—In smiles that are deceiving!"

Might this, then, be true of any woman? So many men had found it out. The eyes of so many had been opened at last. Was I still a fool, had I learned so little of women, had my experience with Mlle. d'Arcy taught me only to beware of women outwardly like her, did I need a separate lesson for each different woman on whom I might set my heart? Was it my peculiar lot to be twice deceived in the same way?

(To be continued.)

## THE PROROGATION OF PARLIAMENT

**FEDERAL LAW MAKERS  
CONCLUDE LABORS**

**Session Came to an End To-Day**  
Governor-General Read Speech  
From Throne.

(Special to the Times.)

Ottawa, July 13.—The second session  
of the tenth parliament of the Domini-  
on of Canada was prorogued to-day  
by Lord Grey with the usual cere-  
monies. His Excellency the Governor-  
General read the following speech from  
the throne:

Hon. Gentlemen of the Senate; Gen-  
tlemen of the House of Commons:  
In relieving you from further at-  
tendance in parliament, I desire to  
thank you for the care and assiduity  
exhibited in the discharge of your la-  
borious and exacting duties.

Your invitation to His Majesty the  
King to visit this part of his domi-  
nions was duly forwarded to Bucking-  
ham Palace. That it would be a source  
of great rejoicing in Canada if His  
Majesty would favorably entertain the  
invitation as confirmed by many simi-  
lar addresses adopted in the several  
provinces, cities and towns, all ex-  
pressing the hope that His Majesty  
may honor us with another visit.

It is very gratifying to note that  
Canada continues to enjoy a prosper-  
ity rarely equaled in the history of the  
nation. The volume of exports and im-  
ports during the year just closed ex-  
ceeds that of any previous record. The  
revenue also shows a remarkable in-  
crease. The receipts on account of the  
consolidated fund having doubled in  
the last ten years.

The large number of private bills  
that have received your approval, hav-  
ing for their object the incorporation  
of railway and other industrial enter-  
prises, affords additional evidence of  
the general prosperity prevailing over  
the Dominion.

The stream of immigrants seeking  
homes in the western provinces con-  
tinues to flow in increasing volume,  
and owing to the favorable conditions  
now existing in Alberta and Saskatch-  
ewan their vacant lands are being rap-  
idly taken up.

Several acts of great public utility  
have been added to the laws in the  
session now drawing to a close. Among  
the number I am glad to note an act  
for the better observance of the Lord's  
Day, an act in restriction of usury, an  
act to secure the better marketing of  
fruit, an act requiring that certain  
articles containing a portion of gold  
and silver when offered for sale should  
be honestly marked, an act relating to  
immigrants and immigration, which  
among other provisions will enable the  
authorities to deport undesirable per-  
sons.

It is earnestly to be hoped that your  
example in passing the act setting  
apart large areas for forest reserves  
will be followed by those provincial  
legislatures having jurisdiction over  
their public domain and that a system  
of reforestation may be adopted in all  
parts of the Dominion, thereby pre-  
serving the uniform flow of our rivers  
and of our valuable water powers.

In view of the many important acts  
passed and of the numerous amend-  
ments made to existing laws during  
this session it has been found expedi-  
ent to stay the issue of the volumes of  
the revised statutes in order that the  
recent legislation may be embodied.

Gentlemen of the House of Com-  
mons: I thank you for the liberal  
names for the supplies you have so lib-  
erally voted.

Hon. Gentlemen of the Senate;  
Gentlemen of the House of Commons:  
A copy of the convention regarding  
commercial relations between Japan  
and Canada has now been received.  
The treaty has been duly ratified and  
exchanged, thereby giving Canada ma-  
terial advantages in our trade with  
Japan.

I now express the hope that on  
your return to your several homes you  
will not forget the coming  
harvest will be a bountiful one, thus  
assuring a number of years of pros-  
perity throughout the Dominion.

**NOMINATED FOR GOVERNOR.**

Nashville, Tenn., July 13.—Henry  
Clay Evans, former commissioner of  
pensions and recently American con-  
sul-general in London, was nominated  
for governor by the republican state  
convention last night.

## OAK BAY ELECTION.

Council and School Trustees Elected by  
Acclamation.

The council and school trustees in the  
new municipality of Oak Bay were duly  
elected to-day. By arrangement the ex-  
penses connected with holding a poll were  
dispensed with and all offices were filled  
by acclamation. The nominations took  
place before the returning officer, J. D.  
Virtue at noon to-day.

The following names were put in nomi-  
nation: W. E. Oliver, for reeve; P. M.  
Rattenbury, E. E. Penberthy, John  
Sutherland, Wm. Noble, Arthur E.  
Haynes and Wm. Henderson, councillors.  
This constitutes the council, which were  
duly declared elected.

The following five school trustees were  
elected by acclamation also: Dr. O. M.  
Jones, H. Hewitt, Mrs. J. Herick Mc-  
Gregor, E. J. Henshall and Mrs. Fleming.

## INTERESTING CASE UNDER SHIPPING ACT

**Dispute as to Whether a Sailor on  
the Salvor Was a  
Deserter.**

In the County court, before Judge  
Lampman, an interesting case arising out  
of the Merchant's Shipping Act is being  
heard to-day. The case is that of J.  
Cairns vs. B. C. Salvage Company. The  
plaintiff was engaged by the defendant  
company on the steamer Salvor on the  
wrecking trip which she made to Alaska  
to raise the German steamer Marien-  
burg. The plaintiff, puts in a claim  
for \$200.25 for three months' wages. Ac-  
cording to the terms of the articles which  
he signed the trip was for a wrecking  
voyage which was not to exceed three  
months. The plaintiff was taken on the  
articles on February 18th. He contends  
that his time of service therewith ended  
May 11th. He gave evidence this morn-  
ing.

The steamer Salvor at the time when it  
is contended his services ended was at  
Juneau with the Marienburg taking on  
coal. Cairns and another sailor gave the  
captain of the Salvor notice that they  
were going to leave and wanted their  
wages. The captain refused to do this.  
According to the terms of the articles  
which they must continue to  
Victoria where they drew their pay.

Cairns on the following night went  
ashore to seek the opinion of a solicitor,  
and was too late to catch a ferry running  
from Juneau to Treadway, where the  
steamer was lying.

The next morning before he could reach  
the Salvor she steamed away. He con-  
tends that none of the usual notices were  
given that the vessel was going to sail.  
No word was passed around or notice  
posted, nor was the usual flag hoisted as  
a warning. Another member of the crew  
was with him and was also left behind.  
The proprietor of a gasoline launch agreed  
to catch the Salvor for the sum of \$30.  
Harry Bullen was met and was requested  
to advance the money to allow of the  
launch being chartered. This Mr. Bullen  
refused to do.

The plaintiff borrowed money from a  
friend and came south on another  
steamer.

When the matter was brought before  
Shipping Master Laird he refused to in-  
terfere, as the master claimed that  
Cairns was a deserter. His wages had  
therefore been forfeited.

The action was brought to recover these  
wages. W. Moresby represented the  
plaintiff.

In cross-examination by W. J. Taylor,  
K. C., it transpired that there were de-  
ductions to be made from this amount.

Canvas, Flags, Galvanized and Black Steel Wire Ropes

**BOY ACCIDENTALLY SHOT.**

Medical Lake, July 12.—Otto Krahn,  
the 8-year-old son of John Krahn, a  
farmer on Malloy Prairie, was instan-  
tly killed Monday by the discharge of  
a shotgun in the hands of his cousin,  
a boy about the same age.

Emma Krahn, a 13-year-old girl, says  
Otto was sitting in a chair when his  
cousin came out of the bedroom drag-  
ging the gun. He did not know it was  
loaded. While the butt of the gun  
rested on the floor he played with the  
trigger. The charge struck Otto in the  
right side and killed him instantly.

**CANADIAN'S VICTORY.**

Englewood, July 12.—G. S. Lyon, of  
Toronto, Canada, beat the national  
amateur golf champion, H. Chandler  
Egan, of Exmoor, Chicago in the sec-  
ond round of match play to-day by one  
up, twenty-eight holes.

In France it is a penal offence to give  
any form of solid food to babies under a  
year old, unless it be prescribed in writ-  
ing by a properly qualified medical man.

The retirement of Major Oswald H.  
Ames, of the 2nd Life Guards, the tallest  
man in the British army, has been gazet-  
ted.
